Dear All

My name is Suha Mohamed Jassim. I am 22 years old. I completed my bachelor's degree in network engineering from the Iraqi University with a very good grade. I love programming a lot and I have a good background in programming .I have the ability to work under pressure and have a good knowledge of Microsoft Office computer, software and hardware. I would like to note that I am a very ambitious person and will work with passion and vigor if accepted with you. I love humanitarian work so this work will provided me the opportunity to provide assistance to the needy,also this opportunity will help me put my wings on the right path and achieve my goal, and this work will also allow me to hone my skills and experience and increase communication with others so that I have a job and a monthly income and thus help my family.. Thank you

very much I hope will be accepted by your presence.
Best regards.
