Proposal for CODE 'N ROSES

Programmer Nets Eng. Suha Mohammed Jasim

Name of proposal	On-line Pharmacy Delivery
Supervisor	**Export of AI :**Reyam Karem Enad
Field of proposal	Web developer
Brief Description	I will build this project by designing it by (HTML&CSS) and all I need in design VSC and Browser and debugging by JavaScript also with VSC.Then I will make EDR schema and then enter my data through postgres by using terminal and I will connect my database with VSC .An online pharmacy can provide you with an easy and private way to buy prescription and over-the-counter medications. Online pharmacies are especially convenient if you live in a rural area, do not drive, or if you are disabled, frail, or homebound.If you feel embarrassed ordering certain medications or healthcare products, online pharmacies allow you to remain anonymous. If you have questions about your medications, Internet pharmacy will allow you to consult with a licensed pharmacist from the privacy of your home .
Expected Outcomes	Development On-line Pharmacy to make life easier for Iraqis.
skills Required	1. HTML & CSS 2. Js N DMS like Mango DB or Postgres 3. Good Idea with VSC .
Beneficiaries	People in generally and pharmacies
